

Senate Fish and Game Committee

RE:SB 151

I support SB 151 as I believe it will help fix some of the problems that non-resident sportsman and others see in the licensing system for archery elk in Montana.

In fact just yesterday I heard from a non-resident that Montana does not really want to do business with out of state hunters and has put up unreasonable and unnecessary hurdles for obtaining a license or a permit.

I believe SB 151 would be a very good start in trying to show non-resident hunters that we do want to do business with them, which is what needs to happen in order for FWP to sell enough licenses to fund their programs.

Please vote for SB -151.

Thank You,

John Wilkinson
